AOJ PACKAGE

1.1 Module contents

```
class aoj.Pagination(current: 'int', last: 'int')
    Bases: object
    current: int
    last: int

class aoj.Submission(id: 'int', status: 'str', problem_id: 'str', language: 'str', code: 'str | None' = None)
    Bases: object
    code: str | None = None
    id: int
    language: str
    problem_id: str
    status: str

async aoj.fetch_page_submissions(driver: selenium.webdriver.chrome.webdriver.WebDriver, user_id: str,
                                  page: int) → AsyncIterator[aoj.Submission]

async aoj.fetch_pagination(driver: selenium.webdriver.chrome.webdriver.WebDriver, user_id: str) →
    aoj.Pagination

async aoj.fetch_submission_code(session: aiohttp.client.ClientSession, submission_id: int) → str

async aoj.fetch_submissions(driver: selenium.webdriver.chrome.webdriver.WebDriver, user_id: str) →
    AsyncIterator[aoj.Submission]

aoj.get_extension(language: str) → str
```

INDICES AND TABLES

- `genindex`
- `modindex`
- `search`
